

Hire of Club Sailing Boats – Self Certification

This form must be completed in all instances when an Ajax is being hired.

For other boats, this form only needs to be completed if the hirer is sailing independently. It does not need to be completed if the hirer is taking part in a supervised sailing activity where safety boats are in use or trainers / supervisors are present.

Please complete the whole form. Note that satisfactory answers in any one of the three sections will normally be deemed to be sufficient for self-certification purposes.
